

# THEY'RE CALLING ON YOU

Wild Gorillas and Chimpanzees are losing their forest habitat because of the mining of minerals found in our mobile phones

Over 1 billion new phones are made every year

Each phone contains rare minerals, such as Coltan

Coltan is illegally mined in forests home to gorillas and chimps

12 million old mobiles are sitting in homes around Australia

## WHAT YOU CAN DO

Recycle your old mobile phone

Raising funds for primate conservation in Africa

Reducing the need for new metals

To help save gorillas and chimps in the wild

Scan to learn more and to send your phones directly:

Collect old phones, chargers, and accessories and bring them along to Taronga Zoo send to MobileMuster for free to help save wild Gorillas and Chimpanzees!
