

Tigers are cats that LOVE water!

**Tigers are the largest wild cats in the world weighing up to 200kg and measuring up to 2m long!**

They can roar but not purr.

**No two tigers have the same stripes, they're all unique.**

Tigers can reach up to 65km/h.

**Tigers have fake eyes called "eye spots" on the back of each ear.**

Tigers are carnivores, eating only meat.

**Tigers are more active at night but can hunt any time of day.**

Tigers have walked the earth for over 2 million years.
